Based on PMBoK
Version 5

Exam Prep (PMP & CAPM)

What is PMP?

The Project Management Institute (PMI) sponsors a project management certification, the purpose and goal of which is the development, maintenance, evaluation, promotion and administration of a rigorous, examination-based, professional certification credential of the highest caliber – the Project Management Professional (PMP). The PMP program supports the international community of Project Management Professionals and is designed to objectively assess and measure professional knowledge. This accreditation is one of the most sought after and prestigious Project Management accreditations in the world.

Course Description

This 2-day project management course prepares people for the PMP & CAPM Examination. It is a highly practical course, with many practise exams. One of the mandatory requirements set out by the PMI is that in order to take a PMP examination a candidate must first satisfactorily complete 35 Profession Development Units (PDU's). This course will provide 13 PDU's.

Course Objectives

On completion of this course delegates will be able to plan their own detailed final preparation for the PMP exam.

Who should attend?

Project Managers who wish to progress to PMP status as outlined by the PMI, and who are already familiar with the main contents of the PMBoK (Project Management Body of Knowledge).

Further requirements

This course will not cover the complete PMBoK Guide as it is not possible to do so in a 2-day period. Delegates attending the course must have already revised key parts of the PMBoK, as follows:

- Integration Management
- Scope Management
- Time Management
- Cost Management
- Risk Management
- Procurement Management

DURATION 2 DAYS

Course Content
